## ABOUT ME

Results-driven software developer and freelancer with experience in developing software and applications. Proficient in various programming languages, with a focus on Android application development and web development. I have successfully developed different mobile applications and websites, demonstrating my ability to adapt to diverse requirements and deliver high-quality results.

## WORK EXPERIENCE

[ 12/03/2022 – 13/08/2022 ] **Lead Front-End Mobile App Developer**

**Bytefarm**

**City**: Addis Ababa

At Bytefarm I worked as a Lead Flutter Mobile Developer for a project called walletX. I made significant contributions to the development of the project. With my experience in Flutter, I played a pivotal role in designing and implementing different functions, resulting in a seamless and user-friendly digital wallet experience.

[ 16/03/2022 – Current ] **Front-End Developer | Video Editor**

**Freelancer.com**

**City**: Remote

- Create user-friendly websites and mobile apps
- Edit short, travel, birthday and wedding slideshows and videos

[ 14/01/2021 – 12/02/2022 ] **Mobile App Developer**

**Ye-Elm-Kazna Telegram Chn. | Individual**

Using the Flutter framework, I developed an Android application for a telegram channel called Ye-Elm-Kazna. This channel serves as an invaluable resource, offering a diverse range of educational materials focused on Islamic knowledge to its dedicated followers

## EDUCATION AND TRAINING

[ 05/09/2019 – 20/07/2023 ] **Bachelor's Degree in Computer Science**

**Addis Ababa University**

[ 15/01/2022 – 09/11/2023 ] **Software Development Cycle**

**SideHustle Internship** <https://lms.terrahq.co/>

[ 10/09/2015 – 30/05/2018 ] **High School Diploma**

**Tora Preparatory and Secondary School**

## PROJECTS

---

[ 20/01/2022 – 09/11/2023 ]

### Pello

Pello was a hackathon project I developed using Flutter and Firebase. The project achieved 4th place in the hackathon competition. Pello: Pello World is a platform designed to facilitate technology students' access to modules, learning materials, and project samples effortlessly.

### MyCloud

I developed a Node.js application called 'myCloud' that implements a matrix based approach to help users find local weather conditions. Through this project, I fully contributed to the design and implementation of the system, enhancing its functionality and performance. Users can effortlessly access weather and other pertinent information by entering their location.

[ 10/05/2022 – 01/11/2022 ]

### Elnjera

Elnjera is a platform used to find detail information's about Injera delivery companies in Addis Ababa City. Developed using HTML, CSS, JavaScript and PHP.

[ 01/10/2023 – 30/11/2023 ]

### wms(woreda management sysyem)

In my university's final project, I stood out in the role of a front-end developer for a Woreda Management System. By utilizing React, Next.js, and Node.js, I crafted intricate user interfaces that significantly enhanced the system's visual appeal and user-friendliness.

## DIGITAL SKILLS

---

### My Digital Skills
